Fast lane access through airport security checkpoints provides travelers with a more predictable experience. Clear members use a designated lane, so they know how long it will take to go through security every time they travel through the airport. That puts your employees in control of their time and travel schedules.

No long lines. No hassle. Less stress. *The Wall Street Journal* reported recently that the nation's major airports have wait times that can be up to 45 minutes. With Clear, your travelers will benefit from wait times that average less than 3 minutes.

No more guesswork. With Clear, your employees will get a consistent, predictable experience from the terminal to the gate, allowing them to be more productive and to better manage their schedules.

Better traveler management. By making travel easier for your employees, you are helping your company's bottomline. Assume that your typical road warrior takes 20 round trip flights per year. Consider that the employee no longer needs to arrive at the airport two hours in advance. At just \$99.95 (includes \$28 TSA vetting fee) per traveler per year, your company now saves thousands of dollars per employee annually.

"I'm through in five minutes...it's predictable, and it's reliable...I don't have to be at the airport two hours before a flight."
